Five musts in Milan.

The Milan Furniture Fair is considered by many to be the world's biggest design event. Offering an exhibition area of 145,000 sqm as well as exhibitions sprinkled throughout the centre of Milan, some tips could be very helpful. Here are Five Musts in Milan, if you were to ask us at Materia.

Salone Internazionale del Mobile (Milan Furniture Fair)

This year there will be 1,400 exhibitors in Milan from 14-19 April. It is well worth taking some time to investigate what is being shown in the different exhibition halls beforehand, so you can select what interests you most - it is impossible to see it all. The fair's official website is www.salonemilano.it and this is where you will find all of the information about where, when and how you will see different exhibitors. We highly recommend, regardless of your plans, that you set aside an hour or so for Salone Satellit, where young, unestablished designers display their exciting ideas. If you leave the exhibition area and head into Milan's buzzing city centre, definitely stop by Zona Tortona and its temporary exhibitions.

Brera Design District

In these old cultural and blue-collar neighbourhoods you will find antique shops alongside designer boutiques, but this area of the city also offers Milan's most enjoyable nightlife. **Here in Brera is also where you will find Materia. We are located at Largo Treves 5 on Via Solferino.** The closest metro stop is MM2 Moscova, and our exhibition is open from 10.00 a.m. until late evening Tuesday to Sunday. See exact opening hours on our [Facebook page](#). We hope to see you there!

The Rossana Orlandi Design centre

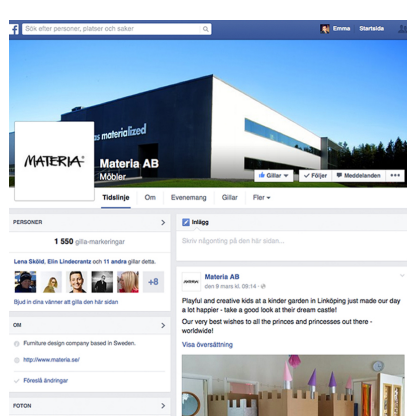

Almost 15 years ago, Rossana Orlandi opened her design centre in an old tie shop on Via Matteo Bandello 14/16. Her goal then, as it is today, was to display the work of young, interesting designers from the entire world. After having been inspired by this exhibition, we recommend you browse around this very special shop followed by a coffee in the beautiful courtyard.

Pane è Acqua

Rossana Orlandi also runs a restaurant, but it is not just because it is close to her design centre that you should go there. It offers excellent food, excellent service and one of Milan's trendiest interiors. You can find Pane è Acqua at Via Bandello 14. It is a small, intimate restaurant, so making a reservation at www.paneeacqua.com is almost a requirement if you want to eat here.

Triennale Design Museum

The building that houses Triennale was built in 1933 and is located at the edge of the Sempione Park. The museum is more like an inspirational centre for modern art, architecture and design than a classical history lesson with a permanent exhibition. The objects on display are changed regularly in order to stay as relevant as possible.

The fastest route to the latest news.

We update our Facebook page every week with interesting information about us as well as about design and interior design from a broader perspective.

Materia's new products travel to Milan.

At our exhibition in Milan, our new products will naturally be in the spotlight. In addition – or if you cannot see them in Milan – there is always our website.

Meet Front.

The design group, Front, is behind the Bin waste basket and the Hanger coat stand. Right now they are very topical together with our new Blanket sofa.
