

Design meets news.

MATERIA®

No. 6 2015

Make Boullée your own.

Competition: Win Boullée, our Newcomer 2015!

Since its launch in February, Boullée has without a doubt been one of our most acclaimed news. And now you have an opportunity to win this innovative stool! The only thing you need to do is go to our Facebook page and enter your preferred material, pattern (or no pattern?) and colour for your Boullée on our competition page as well as where you would intend to use it. Include fabric name and manufacturer if you know them, but it is not necessary.

[Enter here:](#) Good luck!

About Boullée

Boullée is a multi-faceted piece combining the properties of an ergonomic pilates ball and a piece of sculptural upholstered furniture. Its unique shape counterbalances the monotony of sitting still and provides a dynamic seating experience during which you can move about and balance on the furniture using the weight of your body. Boullée encourages participants to be active in meetings, but is equally as suitable for use at desks, in lounge environments or in foyers. The chrome-plated lower section has a rubber edging, while the upper section can be upholstered in fabric or leather. Design: Anders Johnsson.

New salesman for Gothenburg and surrounding district

Erik Johansson is 28 years old; he is a graduate engineer who worked most recently as salesman/product manager at ROL Retail. We think that Erik's expertise is very exciting and we wish him welcome to our company.

New display in our showroom

Our showroom in Tranås is now been fitted out with new furniture, rugs, curtains, lamps and wallpapers. The display is designed by architect Marie Oscarsson from Spectrum Arkitekter and we look forward to the beginning of December when everything will be ready.

Film about Materia

We have been filming here at Materia. For two days, we recorded our entire work process from design to manufacture. The film will have premiere at the Stockholm Furniture Fair in February. If not before then, we hope to see you there!
