No. 4 2017

Design meets news.

Sense – from the catwalk to the office.

Our conference chair, Sense, takes its unique look from the world of fashion.

Sense conference chair, design Mia Cullin.

An inviting feeling.

Sense stands out from the crowd with its soft design. Pleats and creases create an organic form that turn Sense into an expressive and equally inviting conference chair. The inspiration is partly derived from dresses with an empire cut.

Sumo – a conference table with character.

Sumo is a range of tables that stand out and give the room character.

Sumo conference table, design Fredrik Mattson.

Active meetings on sturdy surfaces.

Sumo offers stability and spacious surfaces. The tables are straddle legged and are available with a round, square or rectangular table top. They are all available with power sockets located directly in the table top.
