New products autumn 2021

We are now presenting this year's new sustainable and innovative autumn products which complement our assortment. For example, Ambient beam sofa receives new accessories; table with borders, magazine holders, plant tray and seat height 480 mm. A wooden frame and a fully upholstered seat shell version, complements the Neo/Neo Lite series. A smart supplement are hanging devices for Rocca to protect table tops and simplify when cleaning. In addition, our popular Colours by Materia (CbM) range is being expanded with the Cap stool's stacking rings getting these colours as standard.

CAP stool, Colours by Materia (CbM)
Design: Axel Bjurström & Mia Cullin

AMBIENT beam sofa, new options
Design: Fredrik Mattson

NEO LITE bar stool, wooden frame & fully upholstered
Design: Fredrik Mattson

ROCCA stool, hanging devices
